

Ahtesham Shakeel

ABOUT ME

I am a highly motivated and passionate PHP developer with a passion for crafting efficient and scalable web applications. I possess a strong understanding of the Laravel framework and its ecosystem, leveraging its powerful features to deliver robust solutions. I thrive on tackling complex challenges and translating them into clean and maintainable code. My approach to development is centered around delivering high-quality applications that not only meet functional requirements but also provide an exceptional user experience. I am proficient in database management using MySQL.

EXPERIENCE

E-Commerce Website:

Developed a fully functional e-commerce website using PHP and Laravel framework. Integrated payment gateways and implemented product search functionality. Collaborated with a team of developers to create a user-friendly interface and ensure seamless navigation.

Blog Platform: Created a blog platform using Laravel and MySQL database. Implemented features like user authentication, blog post creation, and commenting system. Utilized front-end technologies such as Bootstrap for a visually appealing and responsive design.
